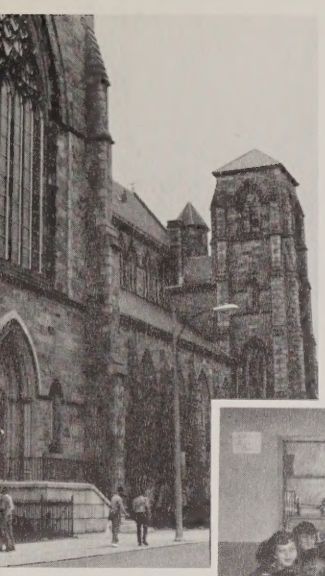
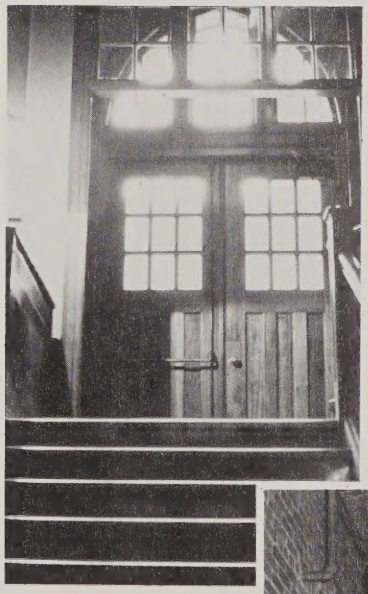
CATHEDRAL

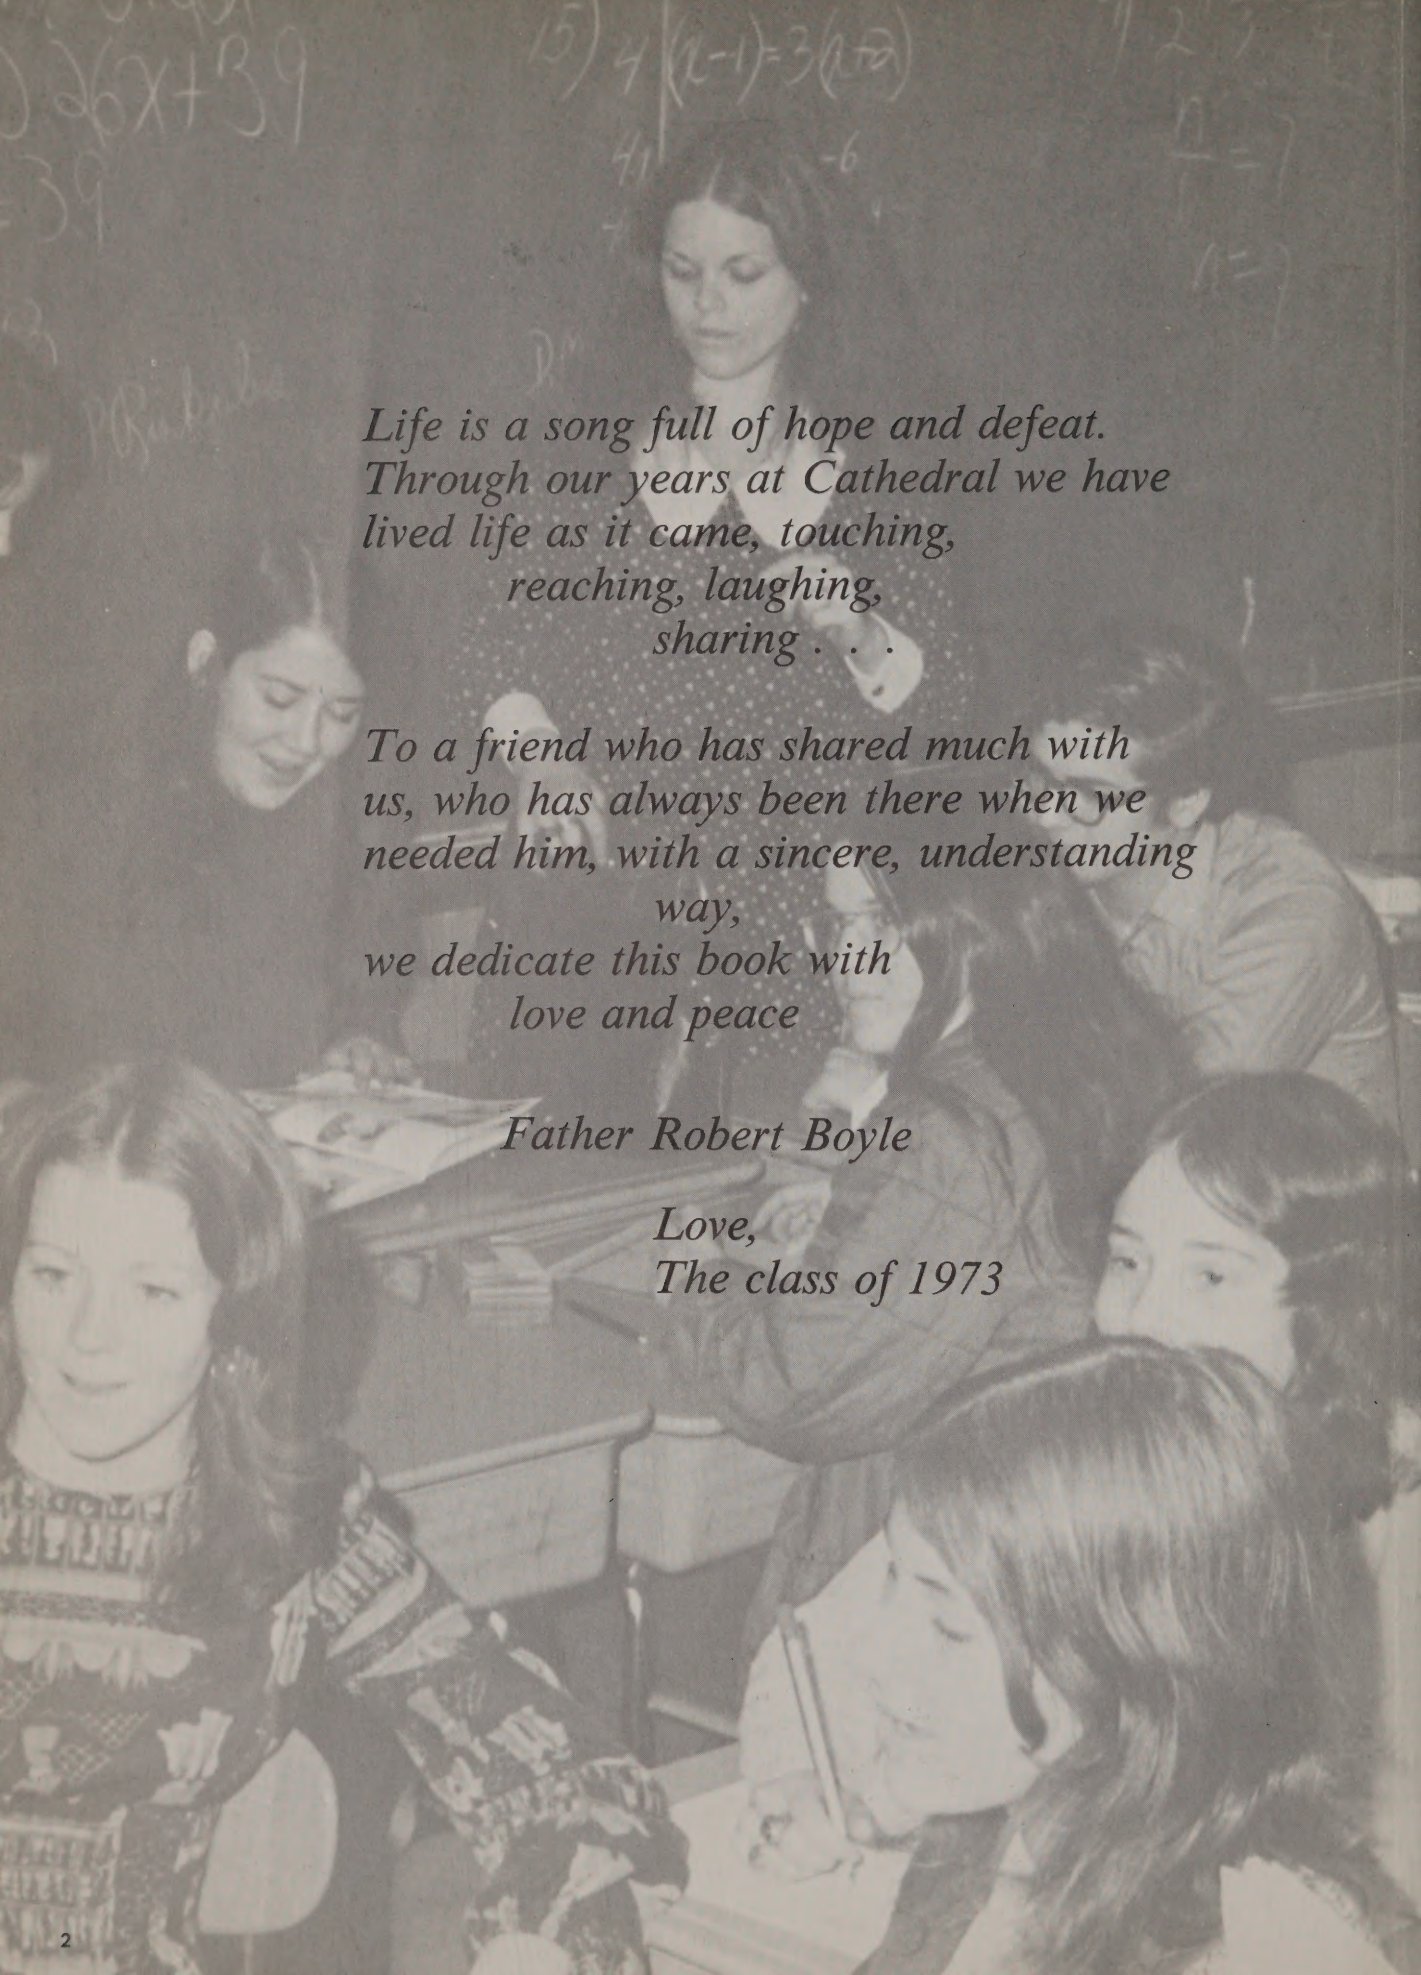
high school



CATHEDRAL HIGH SCHOOL



1973



Life is a song full of hope and defeat.
Through our years at Cathedral we have
lived life as it came, touching,
reaching, laughing,
sharing . . .

To a friend who has shared much with
us, who has always been there when we
needed him, with a sincere, understanding
way,
we dedicate this book with
love and peace

Father Robert Boyle

Love,
The class of 1973

Dear Friends of the Class of 1973:

My mind and my heart have too much to say to you to be able to write it all. First "God bless you" today and each day of your life. Congratulations on your work thus far and "bon voyage" for the journey that is to last the rest of your lives. That journey will be longer for some than others - but the important thing is to live each day of your life. Some die mentally and emotionally before they die physically. That is a tragedy.

I hope that your learning has just begun. Education is not just a "school thing." It is the process of living and maturing.

I hope that you will continue to grow in every way - grow in your love of God, in your love of your fellow man and in your Christian love of yourself.

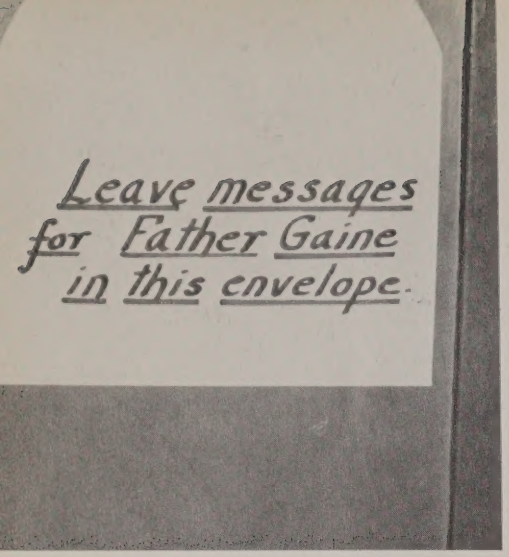
Be responsible - for what you do. You owe the world and society the use of your talents and abilities. There is more to life that just breathing. It is your world and your generation - make it better because you are part of it.

Learn to withstand disappointments and hardships. Through them you can become either bitter or better. It depends on how you accept them. Be patient with yourself and others.

"Never to make a mistake is the greatest mistake." This is not just a slogan. It is a truth that can mean a great deal in our lives. Think hard - make decisions - do things with your life. Learn from mistakes.

Godspeed - Thank you for being you and thank you for your friendship, your enthusiasm and the hope you offer the world. Care for others.

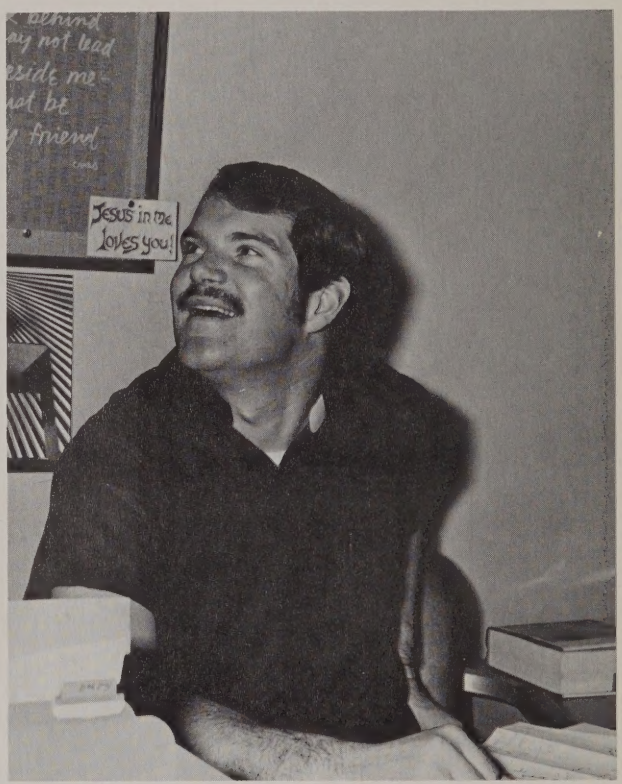
Love,
Father Boyle



Dear Graduates of 1973:

Graduation is a phenomenon that blankets America every Spring. At all different levels - from kindergarten to the granting of PhD! This is the graduation of Cathedral High School - a unique school with unique graduates for you I have many thing I pray.

Albert Einstein once said: "Education is that which remains when one has forgotten everything he has learned in school." My prayer is for all graduates that after all the facts and figures have been forgotten, a basic scale of Christian values will stay with you. My prayer is that your education has strengthened you in life's most important loyalty - loyalty to God, a deep respect for self and neighbor. My prayer is likewise that we all may have an increase of faith to believe the Earth is the Lord's and the World and all who dwell herein.



Our purpose here at Cathedral is to turn out responsible citizens, people with a conscience who can get along with their fellow man and who can help make a better world.

My prayer is that we recognize that we are friends of Jesus Christ. Realize, He is the person who puts it all together - the Man for others and we are the others. He puts meaning into our lives. Jesus is in each one of us. The person next to you is mystery and the Word made flesh is mystery and the Word was made flesh and dwelt among us.

Let us pledge to God our thanks for all the gifts and talents He has given to us. As we do this let us remember the words Robert Kennedy spoke: "Everything is a gift from God and it is the sum of these gifts big or small which makes life beautiful or sad depending on how we use them."

Thanks for making this year so meaningful to me.

With love and prayers for your success and happiness,

Father Gaine

"Nothing in Life really stays ...
And it's beautiful that it goes.
It has to go in order for the next thing to come.
You can almost Add beauty to a thing by accepting that it is
Temporary."
Paul McCartney
